MADBURY FIRE DEPARTMENT

To the Citizens of Madbury:

The 25th year of the Madbury Volunteer Fire Department passed quietly without note with the usual tasks of maintenance and fire fighting, unselfishly performed by devoted men.

The highlights of the year were the acquisition of another truck to improve our fire defenses and the completion of the station addition to house the new equipment.

In March a surplus army vehicle was obtained through civil defense and outfitted as a fire truck by Edward Moody and Son of Nashua.

In April a long series of Tuesday work nights and extra nights began and lasted until December when the station addition was finished.

The 10 x 32 ft. addition across the back of the station provices ample room to house the new truck and our International truck in active service.

The Chevrolet 4 x 4 is at present stored across the back of the station.

It is hoped that it may be possible to house all three vehicles ready for active service in our enlarged station.

The addition to the station was accomplished within our annual budget and from the department treasury. There were also several gifts of supplies and money from townspeople.

The new truck body was completed and equipped within the

fire equipment reserve appropriation and from the department treasury.

The future needs of the department are new hose to replace outdated hose and to build up adequate hose loads for both trucks.

There is also a need for many small items of equipment to completely equip our trucks.

Fire losses for 1972 were the Murphy house and two mobile homes with severe damage to the Liro house.
